**Subject:** Re: KMCO Daily updates/exchange of contact information

The chemical cleanup will resume in am we are switching companies as of Thursday. We were hoping sample results showed we wouldn't have to dig, but we don't know that for a fact till tomorrow. Nevertheless we I'll do this week before rainfall Saturday what is needed to have plant cleaned up.

>> Afternoon,  
>>  
>> Dodie we discussed earlier today Gary would like to receive daily updates on the progression of the cleanup at the facility. He would really like to be informed of what's going on outside of the facility, as well as the cleanup inside. I was not allowed to go inside, as you know, so what we discuss during the morning meetings is really all I have been able to relay to him. If you could start doing this, it would be greatly appreciated as I will then, more than likely, only make a few short visits next week versus daily ones.
